Note As Well:

Additional and specific lecture readings, handouts, optional readings and web links will be clearly designated in the Dropbox. There will be a reading list set out for each of the lectures in this cycle. Please consult these readings as they appear well in advance of each lecture. [All Additional Readings will be Available in Dropbox – other than the above, no additional purchases will be required]

You will note that there is often a Required and an Optional reading folder for each lecture section. You are responsible for reading any Required articles in addition to the Main Freud readings. Any other required readings outside of the texts you are asked to purchase, will be made available in Dropbox. Optional readings are meant to be an additional resource and are for your interest only. Where possible, these will also be available in Dropbox.

We are recommending the New Penguin Freud texts because of the excellent translation into contemporary English. However, the standard edition of Freud's complete works is an invaluable reference and is available on PEP Web.
